

Year	Topic	To	Institute	Details
2017	Art, Public awareness	M. Ruddy/T. Claffey	Artisan House Ltd.	Promotion cost book Tapestry of Light: Ireland's bog and wetlands as never seen before
2017	Research	J. Nijp/K. Metselaar/ J. Limpens	Wageningen University	Drainage Effects on Hydrological Self-regulation in Peatlands
2016	Education	K. Geraghty	IPCC/Lullymore Ireland	Exchange Visit to Bargerveen Nature Reserve and Veenpark
2016	Research	R. Postma/I. Keizer	Wageningen University	Monitoring experiment tree seedling establishment in palsa peatlands Finland
2015	Research	M. Hofsommer	University Utrecht	Phenolic dissolved organic matter from peatlands: Redox properties and enzymatic oxidation" in Zwitserland
2015	Research	R. Hermans	Stirling Scotland/ Wageningen	A study of greenhouse gas fluxes during blanket peat bog restoration from forestry plantations - Carbon fluxes from dead wood in furrows" in Schotland
2015	Research	R. de Boer	Wageningen University	Relating nitrogen-fixation capacity of peat moss to surface water flow paths in a boreal mire in Sweden
2015	Research	E. de Goede	Wageningen University	Separating the relative contributions of key plant functional groups on the green chromatic coordinate ("greenness index") and greenhouse gas fluxes in a boreal mire in Sweden
2014	Research	Erhagen/Limpens	Wageningen University	Can plants accelerate breakdown of old peat in a warmer world?
2014	Research	Krupp/Renou-Wilson	University College Dublin	Comparing the vegetation of re-wetted/restored peatlands with natural peatlands
2014	Research	Swindles	University Leeds	The future of Ireland's Peatland heritage under a changing climate
2014	Research	Griffiths	Manchester Metropolitan University	Investigating the role of catastrophic threshold events in Irish Peatland hydrology and contemporary management plans
2013	Research	B. Robroek	Utrecht University	Groeiproductie-proeven (S. magellanicum en S.fuscum) in 3 Ierse hoogveen deel van "Global Sphagnum Production Project
2013	Research	K. Metselaar/ J. Limpens	Wageningen University	Assessing importance swelling and sinking dynamics of peat moss carpet for peat moss growth
2012	Research	K. Melis/B. Robroek	Utrecht University	Influence of frost on the carbon cycle in an alpine raised bog
2012	Research	M. Kox/B. Robroek	Utrecht University	The effect of extreme drought on rhizoplane microbial communities involved in the methane cycle
2011	Research	J. Limpens/ J. Nijp	Wageningen University	Sphagnum-transplantatie Umea Bog Zweden
2011	Research	Heijbroek/Bruhl/Robroek	Utrecht University	Influence of frost on the carbon cycle in an alpine raised bog
2010	Research	J. Limpens	Wageningen University	Climate induced critical transitions in peatland sequestration: feedbacks between vegetation and near surface moisture
2010	Research	/B. Robroek	Utrecht University	Peatbog: Floristic diversity in relation to biogeochemical factors and N cycling across gradients in N deposition and climate
2010	Education	IPCC	IPCC	ondersteuning bibliotheek (in Bog of Allen Nature Business Centre te Lullymore
2009	Research	B.Beltman/NUIGalway/Aidan Daly	Utrecht University	onderzoek naar hydrologie van Lodge Bog
2008	Research	J. Limpens	Wageningen University	onderzoek naar het effect van de opslag van Berkenbos op hoogveen
2008	Research	B.Beltman/John Galvin	Utrecht University	onderzoek naar hydrologie van Lodge Bog
2008	Management	Fenor Development Association	Fenor Development Association	
2007	Research	J. Limpens	Wageningen University	onderzoek naar het effect van de opslag van Berkenbos op hoogveen
2006	Research	Robroek/Schouten	Wageningen University	onderzoek naar competitie van Sphagnum-soorten in raised bogs
2005	Research	Coumans/Beltman	Utrecht University	onderzoek aan Lodge Bog en Lullymore-West
2005	Research	Robroek/Schouten	Wageningen University	onderzoek naar competitie van Sphagnum-soorten in raised bogs
2004	Management	Van Hest/Beltman	Utrecht University	beheersplan Cuskinny Lake en omgeving (incl. veen).
2004	Research	Robroek/Schouten	Wageningen University	onderzoek naar competitie van Sphagnum-soorten in raised bogs
2000	Research	W.Tolkamp/Sykora	Wageningen University	relatie vegetatie-standplaats in een gradient van hoogveen naar rivier
2000	Research	Giller	University College Cork	onderzoek naar insectengemeenschappen in een gradient op Ballykeny Bog, Co. Longford
2000	Research	E.v.d.Borch	IPCC	inventarisatie van Cummaragh River Bog
1999	Research	Roelofs	Nijmegen University	hoogveenwerkgroep veldexperimenten in Clara bog
1998	Research	Mc Kee / Sheehy S	University College Cork	vervolg heide-onderzoek van 1997
1998	Management	Aukema/Scherrenburg/	IPCC, Larenstein	duurzaam ontwikkelingsplan voor Cloghernaun bog
1998	Research	Roelofs	Nijmegen University	hoogveenwerkgroep veldexperimenten in Clara bog
1997	Research	Mc Kee / Sheehy S.	University College Cork	Conservation and management of Calluna vulgaris-dominated heathlands in upland Connemara
1997	Research	Holsteijn/Soons/Beltman	Utrecht University	Sheheree Bog (=Ardagh bog), Dehydration, Acidification and Eutrophication
1996	Education	O'Sullivan/Whelan	University College Cork	Survey and Analysis of overgrazing by Sheep in the Kerry Uplands
1996	Research	Geerling/van Gestel/Schouten	Nijmegen University	Study on erosion in Irish bogs
1996	Research	Hine/Ransijn/Beltman	Utrecht University	eco-hydrologisch onderzoek naar eutrofiëring van Kilcolman Wildlife Refuge
1995	Research	Kirstin Reil	IPCC	vegetatiestudie van Bealacoon Bog
1995	Research	Paul Holt / O'Halloran	University College Cork	A study of the passerine community of hedgerows on farmland adjacent to Kilcolman National Nature Reserve Co.Cork, Ireland
1995	Research	Edu Dorland/Beltman	Utrecht University	studie naar de eutrofiëring van Scragh Bog en Pollardstown
1995	Research	Mary O'Connor	University College Cork	vervolg vegetatie-kartering van Roundstone bog
1994	Research	Beekelaar e.a./Sykora	Wageningen University	The vegetation of Kilcolman Wildfowl Refuge
1994	Research	Mary O'Connor	University College Cork	vervolg vegetatie-kartering van Roundstone bog
1993	Research	Roepers/Van Groenendaal	Wageningen University	vegetatie-ontwikkeling in wetlands en spreihogveen in Connemara
1993	Education	Van den Herik	IPCC	voorbereidende studie voor de oprichting van cursuscentra voor 'veen-educatie'
1992	Education	Van den Herik	IPCC	Primary peatland education project
1992	Art	F.Dekkers & A.Dijkhorst		?
1992	Art	Sculptors' Society of Ireland	Sculptors' Society of Ireland	vervoer van Bogland-tentoonstelling naar Nederland
1991	Art	T. & B.Elfrink		Studereis Connemara om schilderijen te maken
1990	Research	A. Kooiman	Utrecht University	?
1989	Research	J. Lubberhuizen/J.Ryan		Hydrologisch onderzoek in veen in Mayo
1989	Art	A. Linders		Voorbereiding van een filmscript over de relatie van landschap en cultuur in Ierland
1989	Research	E. Mooney/Dr.M.O'Connell		Onderzoek aan veenvegetatie aan de oever van Lough Corrib
1988	Research	J. Lubberhuizen		Hydrologie van spreihogveen Glenamoy
1988	Research	J. van Groenendaal et al	Wageningen University	Herhaling van onderzoek van 1975 in Connemara
